

PROFESSIONAL.....

ZGF ARCHITECTS	Product Design & Architecture Firm	London
Project Manager	2016 - Present	2009 - Present
Associate	2013 - 2015	
Junior Architect	2009 - 2012	

CLIENT RELATIONSHIP & PROJECT MANAGEMENT

- Developed genuine passion for dialoguing with clients and leading project teams of 10-12 (average project: €50-250m) in diverse sectors like aviation, financial services, retail, government, higher education
- CRM example: 3-year, €1m interiors contract at premiere financial services firm for €1b headquarters in central London
 - Asked to intervene and revive client relationship by ZGF's founder who felt a 'well spoken, persuasive & savvy' project manager was needed for this exacting and high maintenance client; Thereafter promoted to lead project manager
 - Faced with ongoing modification requests from client, identified workaround: substituted time-consuming drafts for partial ones resulting in a profit margin increase from 30% to 40%
 - Led bi-monthly client meetings in London; Approached by VP in 2016 with offer of an additional €1m contract

BUSINESS DEVELOPMENT

- A natural storyteller: Astute at crafting winning client proposals and pitches under tight deadlines; Involved in €12m in business development efforts to date; Leveraged personal network & social media to secure €1,5m in new client business
- Spearheaded expansion of firm's thought leadership to include topics in technology and consumer trends resulting in a 50% increase in inbound marketing traffic to firm website and social media properties

STRATEGY

- Collaborated with finance team to develop turnaround plan to revive a financially troubled European Architectural School; Pitched strategic recommendations and obtained buy-in from school's business director
 - Board felt school needed to rebrand to increase enrollment; Realized school needed to *diversify* its course offerings, not rebrand
 - Identified niche market for short-format workshops with estimated 30% net profit margin - a significant improvement over school's single-digit profit margins
 - Devised teaching partnership opportunity at school for professionals from ZGF (additional €250k revenue/annum)
- Built business case demonstrating a high ROI and retention rate for junior architects recruited from premiere US architectural programs; Convinced leadership to develop campus outreach program; Currently leading recruiting for all junior roles

EDUCATION.....

UNIVERSITY OF CALIFORNIA, BERKELEY	Berkeley
Master of Architecture GPA 3.6/4.0	2009
